

Dear Colleague,

***CESSA Conference Prospect for a European Hydrogen Economy
Comillas University April 14-15 2008.***

Following the success of the two first conferences held in Berlin in June and in Cambridge in December under the auspices of the European Commission, within the CESSA project (Coordinating European Energy Security in Supply Activities, <http://www.cessa.eu.com/>), I am delighted to invite you to attend the third CESSA conference to be held at Comillas University in Madrid 14-15 April 2008. Please, find the programme enclosed.

Participation in the CESSA conference is free of charge, but delegates are requested to arrange for their own travel and to cover their own costs. Assistance with local accommodation can be provided by Andrés González (agonzalez@icai.upcomillas.es), but delegates are also free to make their own arrangements. Meals indicated in the various programmes will be provided free of charge. However, advance notice of attendance and/or cancellation is required. Please return the completed registration form to Andrés González by Monday April 7th.

We very much hope that you will be able to join us in Madrid in April for what we expect to be a most stimulating meeting.

Yours sincerely

Ignacio Pérez-Arriaga
Director of the BP Chair on Sustainable Development
Full professor, Comillas University, Madrid, Spain
