# European Hydrogen Energy Conference 2018

14<sup>th</sup>-16<sup>th</sup> March 2018, Malaga - Spain

## EHEC 2018, A MUST-ATTEND EVENT

The European Hydrogen Energy Conference (EHEC) is the **Europe's conference of reference in the field of hydrogen energy.**

EHEC provides an excellent framework for updates on hydrogen and fuel cell technologies and represents the best setting to show the latest advances in research, projects and products.

After the great success of WHEC 2016, the Spanish Hydrogen Association (AeH2) has taken on the organization of EHEC 2018 with the objective of continuing boosting the use of hydrogen technologies worldwide.

EHEC 2018 will be held in the **Trade Fairs and Congress Center of Malaga (Spain) from the 14<sup>th</sup> to the 16<sup>th</sup> of March 2018.**

EHEC brings together professionals, companies, research centres, public and private institutes and decision makers from throughout the entire hydrogen and fuel cell sector. Hence, it provides a unique forum for sharing scientific and technological information.

The conference will consist of plenary sessions on the most relevant aspects of technology worldwide and topical technical sessions of oral presentations and posters. Additionally, EHEC 2018 will host a trade fair in the heart of the venue, where the industry and research institutions will have a space to showcase and demonstrate their latest products and services on hydrogen technologies.

One of the main aims of EHEC 2018 is to facilitate networking between all hydrogen agents. Therefore, the conference will include several networking areas and multiple side events of interest.

Therefore, **EHEC is a must-attend event for the hydrogen and fuel cells community as well as for everyone interested in hydrogen energy.**

# European Hydrogen Energy Conference 2018

14<sup>th</sup>-16<sup>th</sup> March 2018, Malaga - Spain

## TOPICS

The topics to be covered by the conference communications include:

### 1. Transport topics:

- Fuel cell components, stacks and systems
- Fuel Cell Electric Vehicles (FCEV)
- Hydrogen Refueling Stations (HRS)
- Aerospace, aviation, maritime and rail applications

### 2. Energy topics:

- Hydrogen production
- Hydrogen storage, handling and distribution
- Fuel cell systems for CHP and UPS
- Power to gas and Power to power
- Portable applications

### 3. Cross-Cutting topics:

- Codes and standards
- Safety, Environment and Training
- Companies, commercialization and markets strategies
- Countries strategies, Hydrogen regions and cities

*Would you like to  
become a Sponsor?*

Sponsoring at EHEC 2018 is a  
prime opportunity  
to showcase your  
products and services to  
the key industry players and  
decision makers in FC&H2  
sector.
